FOR VIOLATION OF IMMIGRATION LAWS

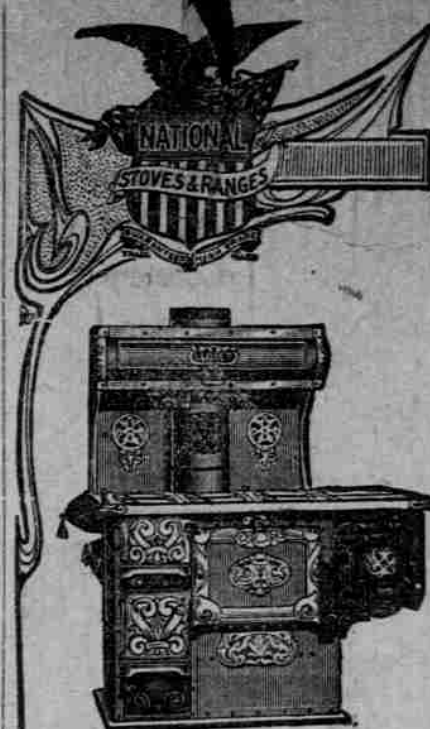

Immigrant from Mexico, Affected with Trachoma, Crept in After Being Rejected. Belongs to Mexican Circus.

The Mexican circus that is now giving exhibitions nightly in this city at Las Delicias pavilion, is now something like the play of Hamlet with the "melancholy Dane" omitted, as it is without a clown. Maclabio Rivera, the individual who has been employed to do the funny act for this circus, is in duress vile at the immigration offices, where he is held under charge of having entered this country in violation of the immigration laws of the United States.

Rivera presented himself with the remainder of the circus company at the immigration offices on the 13th instant, for admission to this state. On examination, he was found to be affected with the dangerous eye disease, trachoma, for which reason he was refused admission, being sent back to Matamoros. The remainder of the company were passed and pitched their tent in Brownsville.

But the clown was sadly missed by his companions, and so it was arranged finally that Rivera should come over without the permission of the immigration officers. This he accordingly did on Sunday night, taking advantage of the immense crowds returning from the Matamoros fiestas on that night. His presence was soon learned of by the authorities, however. The result was that a secretary's warrant for his arrest was secured, and Rivera was placed under arrest by the immigration officers at Las Delicias yesterday afternoon. He will be held a prisoner at the immigration offices until instructions for his deportation are received from Washington.
